

# DD1012

## 12m Dual Plus Radar/Pir detector, 78°, 'Range Gated Radar techn. EN Grade2

### Patented Range Gated Radar Technology

Motion sensors of the DD1000 Series incorporate a UTC Fire & Security patented and unique range gated radar technology allowing the installer to define a clear borderline of the radar range as the radar is used to measure distance between the sensor and moving objects. Effectively the end-user will get rid of any nuisance alarms generated by movements outside the detection pattern.

Every motion sensor comes with 4 possible radar ranges selectable via dip switches allowing the detection pattern to be tailored according to the room where the motion sensor is installed.

The radar operates on 5.8GHz frequency and will not interfere with any WIFI networks.

### PIR Technology in combination with patented mirror optics

Our patented optical mirror technology gives the advantage of gliding focus, which creates a continuous detection curtain from floor level up to installation height.

Within our DD1012 series we are using a dual element pyro generating 2 volumetric curtains for each of the 9 curtain sets.

### Detection technologies working together

These dual tech motion sensors generate an alarm depending on what both technologies – range gated radar and PIR – saw within its detection coverage.

But our dual tech go beyond a simple “AND” function : it classifies the signals from each technology – range gated radar and PIR – to have the best alarm result without being sensitive for nuisance signal sources. This technology creates a uniform sensitivity in all course directions.

### Ease and flexibility of installation

1. Tolerates wall angle deviation and different mounting heights.
2. Limited loss of coverage when objects are placed in the field of the PIR vision.
3. Easy range setting via dip switches of the range gated radar in order to tailor the detection pattern to your needs.
4. Multiple build-in End-Of-Line resistor values with “easy wiring” option available.
5. Plug-in connector.

### Other members of the family

This family includes motion sensors with variants in detection range, two types of anti-masking masking technology and Pet Immunity. The consistent family aesthetics between the various models ensure a professional approach when installing different sensor types.

### Details

- Patented selectable range gated radar technology clearly defining the radar detection border
- PIR technology with patented mirror curtain optics
- Intelligent alarm decision based on signal classification of the PIR and radar alarm
- Automatic continuous self diagnostics on all technologies
- Green mode : option to switch off the radar technology when the security system is not armed
- Holding several security approvals including EN Grade II and UL/ULC

# DD1012

12m Dual Plus Radar/Pir detector, 78°, 'Range Gated Radar techn. EN Grade2

## Technische specificaties

### General

Technology	Dual
Anti masking	No
Pet immune	No
Camera	No
Pry-off tamper kit	ST400
Detector start-up time	60 s

### Detection

Max. detection range	12 m
Detection range	4, 6, 9, or 12 m selectable via dip switches selection
Coverage (field of view)	78°
Undercrawl protection	Yes
No. of curtains	9
Microwave frequency (nom.)	5.8 GHz
Max. microwave output (at 1m)	0.003 $\mu\text{W}/\text{cm}^2$
Alarm memory	Yes
Alarm time	3 sec
Target speed range	0.2 to 3.0 m/s
Peak-to-peak ripple immunity	2V (at 12 VDC)

### Wired/wireless

Wired-wireless	Wired
----------------	-------

### Inputs/outputs

Alarm relay characteristic	NC, 80 mA 30 VDC, Form A
Tamper relay characteristic	NC, 80 mA 30 VDC, Form A
Relay configuration	Multiple EOL values
Remote control lines	Day/Night, Walk test

### Electrical

Power supply value	9 to 15 VDC (12V nominal)
Current consumption	5 to 16 mA (8 mA nominal)

### Physical

Physical dimensions	126 x 63 x 50 mm
Net weight	120 g
Mounting height	1.8 to 3 m

### Environmental

Operating temperature	-10 to +55° C
Relative humidity	95% max. non-condensing
Environment	Indoor
IP rating	IP30 / IK04

### Standards & regulation

EN50131 grade	Grade 2
